EXAM : M.D. BRANCH : XIV, RESPIRATORY MEDICINE

RENNER, JAMES : JAMES - 05

The chemical structure represents the repeat unit of a polyimide. It features a central benzophenone moiety (two benzene rings connected by a carbonyl group). Each benzene ring is part of a phthalimide system, where the carbonyl group is part of a five-membered imide ring. The 4-position of each phthalimide ring is substituted with a 4-phenylphenyl group, which consists of a phenyl ring connected to another phenyl ring at the para position. The structure is shown as a repeat unit with bonds extending from the imide nitrogens.
